Meeting Reflection			
What did we do well this meeting, and what should we change for the next meeting? (Plus/Delta) 1. Was the agenda distributed in time for everyone to prepare? 2. How well did team members prepare for the meeting? 3. How well did we estimate the time needed for each agenda item? 4. How well did we allocate our time for decision making and discussion? 5. How well did everyone stay on-topic? How well did team members speak up when they thought someone was off-topic? 6. How effective was the process for each agenda item?	Plus +	DeltaΔ
